

SUMMARY

Communication designer with 3+ years across brand identity, campaign visuals, editorial and exhibition graphics. I work with restaurants and food projects, museums, festivals and manufacturing brands, taking projects from concept through to delivery. Based in Yerevan (GMT+4), overlapping with European and Middle Eastern working hours and comfortable with async collaboration in English. I use AI generation in production and work with clients end to end. Open to full-time remote roles worldwide; available as a contractor.

EXPERTISE

Brand Identity | Visual Identity Systems | Brand Guidelines | Logotype Design | Typography | Grid Systems | Editorial Design | Campaign Key Visuals | Exhibition Graphics | Social Media Visual Systems | Presentation Design | Illustration | Art Direction | Client-Facing Communication | Remote & Async Collaboration

TECHNICAL SKILLS

Adobe Illustrator | Adobe Photoshop | Adobe InDesign | Adobe After Effects | Figma | Midjourney & AI-Assisted Production | Blender (basic) | 3D Product Visualisation | Prepress & File Preparation | Large-Format Printing | Archival Photo Restoration

SELECTED PROJECTS

HOVHANNES ISAHAKYAN MUSEUM | Permanent Exhibition Graphics | Armenia 2024 – 2025

- Led the project independently from layout through to print: 30+ printed elements including labelling, maps and a 4 × 3 m lightbox
- Restored archival photographs to print resolution; created and refined original illustrations
- Built the graphics as one typographic and grid system, so six months of client-side content changes stayed edits rather than redesigns

MANSION BAR | Interior Mural | Yerevan 2023

- Proposed four concept directions, then executed the selected one on site: projected and traced the outlines, sourced materials with the client, painted a 5 × 5 m full-wall illustration by hand

AM MAGAZINE | Editorial Design | with Kolokolchik Publishing 2026 – Present

- Reframed the brief before design started: presented comparative references and rough spreads to align a non-design client on grid, typography and visual direction
- Built the editorial system — grid, typographic hierarchy, image treatment — for a 300-copy print run

PROFESSIONAL EXPERIENCE

GRAPHIC DESIGNER | GermaniQA, marketing agency | Yerevan, Armenia 2024 – Present

- Design brand identities for agency clients, including Garoon Festival — logotype and emblem still in use by the ongoing festival
- Deliver under tight cycles: twice produced 2 logotypes plus revisions and full logo guidelines within a single week, for technical businesses and a museum
- Run 3–4 projects in parallel, switching between one-off identity work and ongoing retainer clients
- Design social media content and presentations for retainer clients, plus LinkedIn and Instagram for the agency itself
- Build AI-generated brand assets, including consistent male and female presenter characters developed in 2024, when face consistency was still unreliable in available tools
- Produce 3D visualisations of alcohol products for campaign visuals

FOUNDER | Polygraph, design and print production 2023 – Present

- Run a design practice I founded in 2023, with in-house print production: layout, prepress, printing and delivery
- Manage operations so production runs with an on-site employee while I work remotely
- Deliver posters, banners, merchandise and promotional print; handle scoping, timelines and revisions directly with clients

COMMUNICATION DESIGNER | Independent Practice 2022 – Present

- Work directly with 10–15 independent clients with no agency or account layer: scoping, pricing, concept, delivery
- Deliver brand identity, editorial design and typesetting for printed publications
- Set visual direction for websites and social media: grid, typography, colour and content templates

RECOGNITION

- Speaker, "Developing Design Thinking" public talk, HSE Art and Design School — 2024. One of two students selected to speak alongside faculty
- Selected to present project at HSE Design Day, Yerevan — 2026
- Selected work, student and faculty exhibition, SUBARTOK Studio, Yerevan — 2026
- Work screened at HSE Art and Design School × Invisible Friends showcase — 2026
- Featured in 8 publications by HSE Art and Design School — 2024–2025

EDUCATION

BACHELOR'S DEGREE | Communication Design | HSE Art and Design School International, Yerevan Final year, graduating 2027
Dual degree programme with Russian-Armenian University

LANGUAGES

Russian – Native | English – Upper-intermediate | Armenian – Basic
